HEADER SQUARES WITH CAPTIONS

- Image size: 190px (width) by 192px (height)
- add images to `archprog/collections/headerimages/images`
 - o Note: there are two folders “dark” and “light” made for your convenience in organizing the images
- update `archprog/collections/headerimages/header-images` data definition
 - o Note: for each image choose the appropriate “Image Position”
 - Dark: 1,3,5
 - Light: 2,4
 - o Note: avoid using quotation marks in the caption area

DID YOU KNOW?

- Image size: 130px (max width)
- add images to `archprog/collections/random-sidebar/images` folder
- update `archprog/collections/random-sidebar/sidebar` data definition

NEW COLLECTION HIGHLIGHT PAGE

These instructions are for making a new collection highlight page. For example, “Middletown Archaeological Material.” Within each page there are “Collection Items” which are the objects that will appear below the intro text with thumbnails/titles and then with a larger image, catalog number, and description when the lightbox is viewed. Please note that these highlights will need to be updated by hand to the `collection/collection-highlights` index page.

- **THUMBNAIL** Image size: 190px (width) X 192px (height)
- **FULL** Image size: 520px (max width) x 400 (max height)
- New → Second Level Collection Highlight
 - o **Information:** This will be intro text at the top of the page, introducing the collection
 - o **Collection Items**
 - **Thumbnail:** Choose image from `collection-highlights/images`
 - **Image:** Choose image from `collection-highlights/images`
 - **Title:** Title of object (use `` `` to make something italics)
 - **Catalog Number:** Catalog number of object
 - **Description:** Shown only when lightbox is viewed
 - o Add more collection items as needed
